WHY SHOULD I CHOOSE BOEN?

The floor is the largest piece of furniture in your home. It therefore plays an integral part in creating a consistent interior style. We at BOEN have made a commitment to make it easier for you to find the floor that suits your style – and your personality.

WHAT ABOUT THE ENVIRONMENT?

BOEN places considerable emphasis on protecting the environment during all phases of production. None of our lacquer treatments emit gases which are harmful to humans or the environment; this of course also includes our Live Pure lacquer, which is water-based.

TIPS FOR A BEAUTIFUL HARDWOOD FLOOR:

1. STOP DIRT AT THE DOORSTEP

Use doormats at the entrance. We recommend removing your shoes at the entrance.

2. AVOID SCRATCHES AND SCRAPES

Use felt gliders underneath table and chair legs prevent scratches.

3. KEEP THE FLOOR CLEAN

For normal domestic cleaning all you need is a mop, a brush or a vacuum cleaner. In everyday cleaning, dry cleaning methods are best, however should your floor become soiled the use of an approved hardwood floor cleaner diluted with the relevant amount of water can moisten the floor. Any moisture should be wiped up immediately to prevent it being absorbed by the wood.

MUSOLF'S
WOOD FLOORING

KEEP IT NATURAL

2

- Innovative surface technology
- Appearance like sanded raw wood
- High wear resistance
- Low-maintenance surface
- High UV stability

BOEN celebrates the growing trend for natural materials by launching Live Pure, a completely new surface finish that brings your home even closer to nature.

AUTHENTIC LOOK – LIKE UNTREATED WOOD

BOEN's new surface treatment Live Pure brings us closer to nature, by making use of new technology. Live Pure is an ultra-matt surface that enhances the warmth and natural beauty of untreated wood in terms of color, grain and touch.

HIGH RESISTANCE AGAINST WEAR AND TEAR

A hardwood floor with Live Pure finish conveys the impression of freshly sawn wood in its natural state. The surface looks naturally light and preserves the naturalness of the wood – and is highly resistant at the same time.

LIVE PURE

As Pure And Clear As Untreated Wood

An innovative new surface finish technology that gives BOEN floors an untreated and completely natural look that keeps the natural color over time.

In today's design world there is a strong emphasis on natural materials and surfaces. With the introduction of Live Pure BOEN gives the opportunity to choose a flooring that preserves the naturalness of wood, without compromising on resistance against dirt and liquids.
